NOTICE

The Subject Index for Volume 182 will appear in the December 1989 issue as part of a cumulative index for the year 1989.

GENOMICS

International Journal of Gene Mapping and Nucleotide Sequencing Emphasizing Analyses of the Human and Other Complex Genomes

Editors-in-Chief

Victor A. McKusick
The Johns Hopkins University, Baltimore, Maryland

Frank H. Ruddle
Yale University, New Haven, Connecticut

Genomics highlights the emergence of a new area of scientific inquiry—the comparative analysis of the hierarchical organization and evolution of the human and other complex genomes.

- Provides a common meeting ground for those involved in molecular biology and genetics
- Emphasizes the integration of basic and applied research in human and comparative gene mapping, molecular cloning, large-scale restriction mapping, and DNA sequencing and computational analysis
- Publishes full-length and brief research communications, timely reviews, and editorial commentary
- Promotes efficient communication with the major genetic databases

Volumes 4–5 (1989), 8 issues
ISSN 0888-7543
In the U.S.A. and Canada: $168.00
All other countries: $189.00

Sample copies and privileged personal rates are available upon request.

Time-Proven Serials In The Medical Sciences

ADVANCES IN IMMUNOLOGY

edited by
Frank J. Dixon

"...provides unrivalled value in both academic and fiscal terms and should be purchased by hard-pressed librarians as a major priority to be jealously defended."
—JOURNAL OF MEDICAL MICROBIOLOGY

Volume 45
May 1989, c. 437 pages, $65.00
ISBN: 0-12-022445-3

ADVANCES IN VIRUS RESEARCH

edited by
Karl Maramorosch, Frederick A. Murphy, and Aaron J. Shatkin

"A mandatory purchase for all types of comprehensive libraries, both public and university, as well as for those interested in or doing research in the field of virology."
—MILITARY MEDICINE

Volume 36
May 1989, c. 343 pages, $72.00
ISBN: 0-12-039836-2

ADVANCES IN GENETICS

edited by
John G. Scandalios and Theodore R.F. Wright

"...well earns its place on the shelf of any well-stocked library."
—NATURE

Volume 26
September 1989, c. 188 pages
$49.00 (tentative)
ISBN: 0-12-017626-2

ADVANCES IN CANCER RESEARCH

edited by
George F. Vande Woude and George Klein

"...now a standard reference, and any cancer research laboratory or clinic is quite incomplete without it."
—SCIENCE

Volume 52
May 1989, 347 pages, $65.00
ISBN: 0-12-006652-1

METHODS IN ENZYMOLOGY

editors-in-chief
John N. Abelson and Melvin I. Simon

"...a true 'methods' series, including almost every detail from basic theory to sources of equipment and re-agents, with timely documentation provided on each page."
—BIO/TECHNOLOGY

Volume 173
August 1989, c. 798 pages
$95.00 (tentative)
ISBN: 0-12-182074-2

ADVANCES IN APPLIED MICROBIOLOGY

edited by
Saul L. Neidleman

"No laboratory scientist, field worker, or technical administrator can afford to pass it up."
—ASM NEWS

Volume 34
June 1989, c. 306 pages
$60.00 (tentative)
ISBN: 0-12-002634-1

INTERNATIONAL REVIEW OF EXPERIMENTAL PATHOLOGY

edited by
G.W. Richter

"...recommended highly and a must for all medical libraries."
—ARCHIVES OF PATHOLOGY

Volume 30
December 1988, 399 pages, $79.00
ISBN: 0-12-364930-7

ANNUAL REPORTS IN MEDICINAL CHEMISTRY

editor-in-chief
Richard C. Allen

"...comprehensive coverage in a publication that can only be commended."
—THE PHARMACEUTICAL JOURNAL

Volume 23
1988, 408 pages, $55.00
ISBN: 0-12-040523-7

INTERNATIONAL REVIEW OF CYTOLOGY
A Survey of Cell Biology

editor-in-chief
G.H. Bourne

editors
K.W. Jeon and M. Friedlander

"...excellent reviews with a substantial amount of information on each topic...a valuable addition to your library."
—ASM NEWS

Volume 116
August 1989, c. 348 pages
$65.00 (tentative)
ISBN: 0-12-364516-6
